Education

- 2001-2005 PhD in Development Studies. School of International Development, University of East Anglia.
- 2000-2001 MSc in Renewable Natural Resources and Development. School of International Development, UEA.
- 1999-2000 Postgraduate Degree in Environmental Management in Public and Private Administration. Social Psychology Department, Universitat de Barcelona.
- 1994-1999 BSc in Environmental Sciences. Universitat Autònoma de Barcelona (UAB).

Research profile and interests

Environmental governance - Climate change mitigation and adaptation – Biodiversity conservation - Political ecology - Rural livelihoods

I am an environmental social scientist who studies how climate change mitigation and adaptation programs and biodiversity conservation policies impact livelihoods, resource management institutions and people's behaviour. Policy and project initiatives aimed at confronting climate change and biodiversity loss are at the forefront of scientific and political discussions about global land-use because such initiatives influence how land is used and for whose benefit, with implications for rural development, environmental sustainability, climate change responses, and for the efficiency of public spending. My research has been instrumental to understand such implications and draw policy recommendations, at both national and international levels.

I have done long-term fieldwork in Mexico, Belize, and Tanzania, and research findings have translated into more than 60 peer-reviewed scientific articles, published in top-tier multidisciplinary and social science journals, such as *Science*, *Nature Climate Change*, *Global Environmental Change*, *Geoforum* or *World Development*. I have also written several books and book chapters, dozens of policy briefs, working papers and consultancy reports. I have an *h-Index* of 24 and over 2800 citations in Scopus, and an *h-Index* of 31 and over 6000 citations in Google Scholar. My teaching addresses a range of topics relevant to political ecology and the social dimensions of biodiversity conservation and climate change at undergraduate and postgraduate levels, first at the UEA (2002-2011), then at the University of Cambridge (2009-2011), and now at the UAB and IBEI (since 2011 and 2017, respectively).

I am currently a Principal Investigator or Co-Investigator in four international projects, a co-researcher in another and I have completed eight other projects. I have contributed to raise as PI, co-PI, or Researcher over 9 million Euros in research grants, of which I have directly managed approximately 2 million. I co-lead the *Laboratory for the Analysis of Socio-Ecological Systems in a Global World* at ICTA-UAB (2014-SGR-0736), through which I presently supervise 4 PhDs. I have guided 6 PhDs, 20 MSc and 4 undergraduate theses to completion, as well as mentored four post-doctoral researchers. I have been a speaker or invited panellist in over 70 international conferences, workshops and policy events, a reviewer for international research programs and journals, as well as a consultant for organisations like CIFOR, UNESCO, and the Catalan government.

I joined the editorial board of [Geoforum](http://www.geoforum.com) in January 2017 and I have been a member of the international editorial boards of the journals [Global Environmental Change](http://www.glo-environmental-change.com) (2013-2015) and the [Journal of Peasant Studies](http://www.journalofpeasantstudies.com) (ongoing), the [International Society for Ecological Economics](http://www.international-society-for-ecological-economics.com), the [International Association for the Study of the Commons](http://www.international-association-for-the-study-of-the-commons.com), and the [Association of American Geographers](http://www.association-of-american-geographers.com). I have (co-)authored two chapters of the 5th Assessment Report of Working Group III (Mitigation) of the [Intergovernmental Panel on Climate Change](http://www.intergovernmental-panel-on-climate-change.org) (IPCC). I have been awarded a PhD fellowship by the Tyndall Centre for Climate Change Research (2001); a 'Ramón y Cajal' senior fellowship by the Spanish Government (2010); a Marie Curie Career Integration Grant by the European Research Agency (2011); and more recently the 'UAB-Banco de Santander' talented researcher fellowship (2015).

Distinctions (including honours & prizes)

Editorial Board member: *Geoforum* (2017-).

International Editorial Board member: *Journal of Peasant Studies* (2013-); *Global Environmental Change* (2013-2015).

Advanced Research accreditation by the Universities' Quality Agency, Government of Catalonia (2017), which recognizes outstanding research and teaching skills and is a formal requirement to opt for a professorship in Catalan universities.

Visiting Fellow grant, Institute for Advanced Study, Indiana University (2016).

I3 Programme award by the Spanish Ministry of Economics and Competitiveness (2015), which recognizes excellence in research and is a relevant merit in Spanish universities' competitive calls at professorial level.

Tenured Assistant Professor accreditation by the Universities' Quality Agency, Government of Catalonia (2013), which recognizes outstanding research and teaching skills and is a merit to be considered when opting for lectureships in Catalan universities.

Tyndall Centre Prize to the best interdisciplinary paper, published in *World Development* (2009).

Lead Author in the 'Sustainable Development and Equity' chapter and Contributing Author to the 'Agriculture, Forestry and Land-Use' chapter of Working Group III, 5th Assessment Report, Intergovernmental Panel on Climate Change (IPCC) (2011-2014).

Positions held and key activities

- 2015-present Senior Researcher, ICTA-UAB, Spain.
'UAB-Banco de Santander' Talent Retention Programme fellow.
Principal Investigator (PI) in an NWO/DfID funded project (2014-2017).
Co-PI in an NSF-USA project (2015-2017) and an ESPA-UK project (2015-2017).
Researcher in an ESPA-UK project (2016-2017).
Lecturer - MSc in Interdisciplinary Studies in Environmental, Social and Economic Sustainability (MEISAES), ICTA-UAB; MSc in Development Studies, IBEI (www.ibeio.org).
Co-Leader - Laboratory for the Analysis of Socio-Ecological Systems in a Globalised World (LASEG, SGR0736), with Prof. Victoria Reyes-García.
- 2011-2015 Senior Researcher, ICTA-UAB, Spain.
Ramón y Cajal research fellowship, Secretariat for Science, Development and Innovation, Spanish Ministry of Economics and Competitiveness.
PI in a EU-FP7 project (2012-2014), a EU-Biodiversa project (2012-2014), a MINECO project (2012-2014) and a Marie Curie Career Integration Grant (2011-2014).
Researcher in an NWO/DfID funded project (2013-2017).
Lecturer - MEISAES, ICTA-UAB.
- 2010-2014 Research Associate, School of International Development, UEA.
PI in a NORAD funded project (2010-2014).
Lead Author & Contributing Author. Intergovernmental Panel on Climate Change Working Group III - Mitigation (Chapters 4 & 11).
- 2009-2011 Associate Lecturer, MPhil in Environmental Policy, Department of Land Economy, University of Cambridge, UK.
- 2005-2010 Post-Doctoral Fellow, Tyndall Centre for Climate Change Research, UK.
Post-doctoral fellowship to write articles from doctoral research, and to analyse decarbonisation strategies through the Clean Development Mechanism.

- 2001-2005 PhD Researcher, School of International Development, UEA, UK.
The PhD analysed the emergence of carbon forestry activities in Mexican environmental policy and examined the *Fondo Bioclimático* carbon forestry project in the state of Chiapas. The research was part of a broader project funded by the Tyndall Centre.
- 1999-2000 Research Assistant, ICTA-UAB, Spain.
Research projects were developed in cooperation with private and public institutions, including Life Cycle Assessments and waste management plans.
- 1998-1999 Research Assistant, Centre for Biological Scientific Research, Universidad Autónoma del Estado de Morelos, Mexico.
Development of the project 'Changes in forestry and agricultural production in Huitzilac 1970-1993, Morelos State, Mexico' using semi-structured interviews and land-use data.

Institutional Design and Effectiveness of the Mexican Programme of Payments for Carbon, Biodiversity and Agroforestry Services 2006-2007

Funding Agency: British Academy of Sciences Small Grant Program, UK

Role: Principal Investigator

Total budget: £7,500

Environmental and socio-economic benefits of pro-poor technology transfer: The Kuyasa CDM project in South-Africa 2008-2010

Funding Agency: Tyndall Centre for Climate Change Research, UK

Role in the project: Post-Doctoral Researcher

Total budget: £80,000

How do CDM projects contribute to Sustainable Development? 2001-2004

Funding Agency: Tyndall Centre for Climate Change Research, UK

Role in the project: PhD Researcher

Total budget: £125,000

Senior Consultant in projects related to payments for ecosystem services, markets for forest carbon, and climate change mitigation, funded by: the Center for International Forestry Research (CIFOR), Mar-Sep 2010; the Advisory Council for Sustainable Development of the Catalan Government, Jun 2006-July 2007, May-July 2007 and May-Aug 2009; the Meteorological Service and the Environment Department of the Catalan Government, Feb 2009-May 2010; and UNESCOCAT, Jan-May 2008.

Academic conferences (as panellist and/or discussant)

Distinct positions underpin ecosystem services and poverty alleviation research. Association of American Geographers Conference, Boston, April 5-9, 2017. Panel convenor & speaker.

Contesting the Market-Based Logic: Alternative Discourses of Payments for Ecosystem Services. Association of American Geographers Conference, Boston, April 5-9, 2017. Discussant.

Combining Participatory Forest Management with REDD+ in Tanzania: An analysis of governance and livelihood impacts. FLARE conference. Edinburgh, December 3-4, 2016.

Analysing the legitimacy of Mexico's REDD+ readiness process. Climate Change Interventions as a Source of Conflict, Competing Claims and New Mobilities. LANDAC, NWO and Utrecht University Conference. Utrecht, November 24-25, 2016.

Understanding conflict and cooperation in REDD+ through the lens of justice: Evidence from Mexico, Nepal and Vietnam. Climate Change Interventions as a Source of Conflict, Competing Claims and New Mobilities. LANDAC, NWO and Utrecht University Conference. Utrecht, November 24-25, 2016.

Justice in the carbon fix. American Anthropological Association Conference, Minneapolis, November 16-19, 2016. Discussant.

Crowding-in or crowding-out? A conceptual framework to understand motivations in payments for ecosystem services. Resource Politics Conference, University of Sussex, September 7-9, 2015. Panel convenor.

Tok'uj and the disappearing forests: a tale about how forests conservation mapping can counteract the advancement of the agricultural frontier. Land Grabbing: Perspectives from East and Southeast Asia Conference, Chiang Mai University, June 5-6, 2015. Plenary discussion talk.

Teaching experience

All my teaching activities involve a combination of theory, with the discussion of practical applications of theory and related methods through case studies derived from my own or others’ research. In doing so, I employ seminal lecturing, reading sessions, group work & discussions, as well as supportive video graphic material. Course assessment consists of essays, presentations in class, book review exercises, blog and video development pieces, and occasionally exams.

Institut Barcelona d’Estudis Internacionals (2017-)

Natural Resources, Environment and Development, MSc in Development Studies. Course convenor and lecturer, 2017-ongoing, 24h/year + student assessment and supervision. Topics covered: principles and strands of political ecology; application of these principles to the analysis of resource ‘grabs’, biodiversity loss, climate change and desertification. Critical examination of proposed policy solutions, including protected areas, carbon markets, and adaptation programs.

Universitat Autònoma de Barcelona (2011-)

Foundations of Ecological Economics, MSc in Interdisciplinary Studies in Environmental, Economic and Social Sustainability. Course convenor and lecturer, 2011-ongoing, 18h/year + student assessment and supervision. Topics covered: environmental institutions & governance, property rights & theory of access, ecosystem services and climate mitigation programs.

Global Change, MSc in Interdisciplinary Studies in Environmental, Economic and Social Sustainability. Lecturer, 2013 & 2014, 12h/year + student assessment and supervision. Topics covered: international climate policy, vulnerability and adaptation, carbon markets and offsets, renewables and bioenergy policies, geo-engineering, REDD+.

Introduction to Ecological Economics, MA in Economics History. Lecturer 2011-2013, 12h/year + student assessment and supervision. Topics covered: environmental policy instruments, externalities, eco-efficiency and the Kuznetz curve, cost-benefit and multi-criteria analysis, ecological debt and conflicts, environment and growth debate.

Human Use of the Earth System, 1st year Environmental Sciences. Lecturer 2014, 6h/year + student assessment. Topics covered: sustainable development, macro-economic accounting, population growth and natural resources.

Environmental & Natural Resources Economics, 2nd year Environmental Sciences. Lecturer 2011-2013, 8h/year + student assessment. Topics covered: property and access theory, ecological distribution conflicts, bioenergy policy and impacts, climate change negotiations, climate change adaptation, payments for ecosystem services.

University of Cambridge (2008-2011)

Economic development and land use policies, MPhil in Environmental Policy. Lecturer 2009-2011, 8h/year + student assessment and supervision. Topics covered: Integrated Conservation and Development theory and practice, payments for ecosystem services and development, climate change and forests: scientific basis, governance frameworks and emerging policies and practice, climate change negotiations, bioenergy policies and impacts.

Chevening Fellowship Programme. Lecturer 2008-2009, 4h/year. Topics covered: the clean development mechanism, voluntary carbon offsets, REDD+ and payments for ecosystem services.

University of East Anglia (2002-2011)

Climate Change and Development Professional Training Course, School of International Development. Lecturer 2008-2011, 4h/year. Topics covered: climate change mitigation and development, voluntary carbon offsets.

MSc Induction Week Course, School of International Development. Course convenor 2005.

Understanding Environmental Change seminar series, MSc in Environment and Development. Seminar facilitator 2004, 8 hours. Topics covered: the tragedy of the commons, environmental crisis narratives, foundations of political ecology, Lomborg's skeptical environmentalist.

Introduction to Development Studies seminar series, 1st year Development Studies. Seminar facilitator 2004. Topics covered: the World's Summit on Sustainable Development, knowledge and progress.

International Foundation Programme for International Students, Faculty of Social Sciences. Course convenor 2003.

Professional and administrative experience

Jury member for the Elinor Ostrom Award on Collective Governance of the Commons (2016); and the Journal of Peasant Studies' Krishna Baradwaj and Eric Wolf Prize (2015).

Examiner of 9 PhD dissertations: National University of Singapore (1); University of Cambridge (1); University of Cape Town (1); Charles Darwin University (1); Griffith University (1); University of Manchester (1); University of Kent (1); University of Antwerp (1); Universitat Autònoma de Barcelona (4); Universidad Autónoma de Madrid (1). [Record of MSc dissertations assessment available on request]

Supervisor of 20 MSc dissertations: University of East Anglia (3); University of Cambridge (4); Universitat Autònoma de Barcelona (13).

Supervisor of 4 undergraduate dissertations: Universitat Autònoma de Barcelona (4).
